**Subject:** [External] Rejection of anti-renewable energy proposal

Dear committee,

Please reject the anti-renewable energy proposal from Dominion. Consumer choice is important to me, and I trust, important to you.

As a Lutheran pastor, I feel called to faithful stewardship of resources and purchased solar some years ago. I ask you to please listen to SC constituents and not penalize renewable energy preferences. Please reject Dominion's attempt to stifle solar energy.

Thank you.  
 Rev. Mary M. Finklea
